THE WALKER CODE

Visorando

by Visorando

Before the walk

CHOOSE YOUR WALK CAREFULLY

by matching its difficulty and duration to your skill and physical ability.

CHECK THE WEATHER FORECAST

and look for other important information, such as snow, temperature, tide times, wind speed, fire risks, etc.

BE PROPERLY PREPARED

by taking suitable equipment with you, such as whistle, first-aid kit, appropriate clothing and something to eat and drink.

LET SOMEONE KNOW

where you will be walking.

During the walk

STAY ON THE PATH

Follow local signs and keep to marked paths unless wider access is available.

RESPECT THE COUNTRYSIDE

by not damaging fences, fields and crops and not picking fruit or vegetables..

RESPECT LOCAL RESTRICTIONS

such as bans on fires, barbecues, camping, fishing, swimming, etc.

LEAVE GATES AS YOU FIND THEM

be cautious of farm animals : try to go around, not through herds or flocks.

TAKE YOUR RUBBISH HOME

and do not leave any trace of your journey except your footprint.

DON'T MAKE LOTS OF NOISE

and do be respectful and courteous to people along the route.

KEEP YOUR DOG ON LEAD

and have it close to you at every crossroads of other users. Bag and bin its dog poo. Walking with a dog is not recommended on routes where there are farm animals.

THE COUNTRYSIDE IS A LIVING ENVIRONMENT

that evolves with time. Waling is an adventure and there are risks associated with it. Be responsible, and know when it is better to give up and turn around than get into danger.
